Product developers, From idea to collection

Behind every Jollein collection is a team full of creativity, precision and passion. Two familiar faces within our Development team are Sanne and Dieneke. Together with their colleagues, they are responsible for the entire journey from the very first idea to the final product arriving in our warehouse. From creating new concepts, colors and prints to improving existing products and working closely with suppliers around the world, every detail is carefully considered.

Since joining Jollein in 2024, Sanne has quickly discovered how dynamic the role of Product Developer truly is. "No day is ever the same," she explains. "You constantly switch between creativity, technical development and problem solving." What she loves most is developing completely new products that are not only beautiful and innovative, but also practical, commercial and fully compliant with strict safety regulations. Seeing products arrive exactly as imagined, or watching colleagues from Sales become genuinely excited about a new collection, are the moments that make her happiest. "When people can't wait for the collection to launch, you know you created something special."

Dieneke has been part of the Jollein Development team for almost three years and loves seeing a collection slowly come to life. "What starts as an idea on paper eventually becomes a real product that families can use and love," she says. Inspiration comes from everywhere: nature, exhibitions, trends, architecture fabrics and everyday life. Together with the team, she carefully translates these ideas into balanced collections that stay true to the recognizable Jollein feeling. One of the most exciting parts of her work is developing new products and materials, such as the merino wool sleeping bags and the new diaper bags in this collection. "There's a lot involved behind the scenes: from fit and materials to safety testing and supplier communication. That's what makes it so rewarding when everything finally comes together."

What many customers may not realize is how much work and craftsmanship goes into every single product. From hand-drawn prints and technical drawings to labels, packaging and safety testing, every detail is thoughtfully designed by multiple teams working closely together. As Sanne beautifully explains: "When you realize how many people contribute to creating one product, you start looking at it with even more love." Together, Sanne and Dieneke perfectly reflect what Jollein stands for: creativity, collaboration, innovation and a passion for developing products that bring comfort, style and joy to families every day.

**With love,
Sanne & Dieneke - Product developers**

Mix & match

The beginning

Jollein's journey began in 1973, when Wim Smits Senior's baby goods textile company went bankrupt. Undeterred, he purchased some fabric, revamped an old bus, and kickstarted the family business by selling his wares to acquaintances.

The 70s

By the '70s, Jollein had evolved into a moving showroom, giving customers the chance to buy their favorite items on the spot.

Around 1970

In the 1970s, Jollein reached a milestone when Wim Sr. noticed German mothers buying sleeping bags for their babies. Seeing potential, he made minor adjustments to create the ideal baby sleeping bag, which was born just two days later.

Early 80s

Things really picked up in the '80s when production was in full swing, and the Smits family had to find their own storage space since their home was bursting at the seams. But that didn't stop them from making their customers happy!

Mid 80s

The production was running at full speed and the customers were happy with the beautiful products. Our house was overflowing and we had to look for our own storage. It now felt like a real business!

The 90s

In the '90s, Wim Smits Sr.'s health began to decline, but his son and daughter-in-law, Marrit, took the wheel and kept the family tradition alive.

The 00's

In the year 2000, an offer came in from Pakistan that Jollein just couldn't resist. The deal allowed them to purchase high-quality fabrics at an even better price, which meant they could expand their business even more.

Around 2010

Jollein grew fast as a brand and the products were sold more and more. Jollein became more than just a logo on a plastic bag: the brand Jollein was now a fact.

Now

By 2026 Jollein has become a household name with over 1500 customers all over the world. Jollein is teaming up with Mentha to take their international growth to the next level. Together, they're aiming to bolster Jollein's market share in existing regions and expand into brand new countries. With Mentha's expertise and support, Jollein is ready to take on the world. One thing has never changed:

Soft Shapes, New Possibilities

Get a first glimpse of our new shop-in-shop furniture collection. Defined by soft curves and rounded silhouettes, these new display elements are inspired by the gentleness and warmth of a baby's world. The organic shapes create an inviting and harmonious setting that beautifully complements the Jollein collections and allows products to be presented in a soft and natural way. Thoughtfully designed to bring products, storytelling, and atmosphere together, this new concept helps create an engaging retail experience that feels warm, welcoming, and unmistakably Jollein. This is just a preview of what's to come.

Dreaming big since 1973

It all started in 1973, when Jollein founder Wim Sr. stitched together the very first baby sleeping bag in his sewing studio. His goal? To give babies a safer, more comfortable night's sleep. Fifty years later, that same mission is at the heart of everything we do. While the world has changed, our focus on innovation, quality, and softness has only grown stronger.

As the colder months return, parents once again turn to the warmth and security of Jollein sleeping bags. Whether it's a cozy footmuff for a walk outside or a softly lined winter sleeping bag for bedtime, our collection is designed to keep little ones snug, safe, and comfortable through every chilly moment.

New! Sleeping bag with legs and removable sleeves

New at Jollein! This sleeping bag with legs combines the familiar, snug feeling of a sleeping bag with the freedom to move. Thanks to the two legs, your little one can easily walk around, play, or enjoy a cuddle before the day begins. The anti-slip feet provide extra grip, helping your little one move around safely.

Made from soft cotton that feels gentle on delicate skin, this sleeping bag with legs features a light filling for comfortable warmth and a breathable fabric that helps maintain a pleasant sleep climate. The removable sleeves make it extra practical, allowing you to easily adapt it to changing temperatures.

TOG advice for sleeping bags with sleeves

Our sleeping bags with removable sleeves are your go-to choice for transitioning between seasons and for the winter months. They provide extra warmth during cold nights and can be easily adjusted to the surrounding temperature by simply zipping off the sleeves.

Merino wool is a beautifully natural material, loved for its exceptional softness and comfort. It feels ultra-soft against delicate skin, making it perfect for little ones from the very beginning. Our merino wool is also mulesing-free, ensuring it is sourced with animal welfare in mind.

What makes merino wool truly special is its ability to regulate temperature, keeping your baby warm when it's cold and comfortably cool when it's warmer. Ideal for year-round use.

In addition, merino wool is naturally antibacterial and self-cleaning, meaning it stays fresh longer and often only needs a little airing out. As a fully natural and biodegradable material, it's also a conscious and sustainable choice. Combining softness, functionality, and a timeless look, merino wool is a gentle essential for everyday comfort.
